

Cultural and Intercultural Competence: Opportunities and Recommendations for Behavioral Health Professionals

FREE training offered by AmeriHealth Caritas Ohio

Virtual workshop presented by
Dr. Patricia Lyons, PhD (Public Health), LISW-S
Health Equity Director, AmeriHealth Caritas Ohio
Thursday, April 25 • 9 a.m.–11 a.m.
Offered via Zoom Webinar

Description: Evidence-based and promising practices are often used when developing care models, interventions, and quality services in both physical and behavioral healthcare. However, training and dissemination of these approaches are often not accompanied by recommendations for delivering interventions within a health equity lens, and there is limited research showing the impact of cultural competency education/training in clinical practice settings. This presentation will (1) identify opportunities for behavioral healthcare professionals to address this gap and (2) provide practical recommendations for building cultural and intercultural competence to promote the delivery of culturally responsive evidence-based care across diverse populations and healthcare settings.

Objectives:

1. Gain a deeper understanding of behavioral health equity and culturally responsive evidenced-based care.
2. Identify at least 1 difference between cultural competence and intercultural competence.
3. Describe at least 2 strategies for building cultural and intercultural competence.

**2.0 free CEUs approved for
Ohio Counselors, Social Workers, & MFTs**
(CSWMFT Provider #s: RCS092303 & RTX032403)
Licensees from other disciplines are encouraged to contact their state licensing board to request continuing education credit for this training event.
